§ 230.1 Purpose and scope.

(a) The regulations of this subpart govern the rules and procedures for the Community Forest and Open Space Conservation Program (CFP), established under Section 7A of the Cooperative Forestry Assistance Act of 1978 (16 U.S.C. 2103d). Under the CFP, the Secretary of Agriculture, acting through the Chief of the Forest Service, awards grants to local governments, Indian tribes, and qualified nonprofit organizations to establish community forests for community benefits by acquiring and protecting private forestlands.

(b) The CFP applies to eligible entities within any of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, the Commonwealth of the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, the Republic of Palau, and the territories and possessions of the United States.

§ 230.2 Definitions.

The terms used in this subpart are defined as follows:

Borrowed funds. Funds used for the purpose of cost share which would encumber the subject property, in whole or in part, to another party.

Community benefits. One or more of the following:

(1) Economic benefits such as timber and non-timber products resulting from sustainable forest management and tourism;

(2) Environmental benefits, including clean air and water, stormwater management, and wildlife habitat;

(3) Benefits from forest-based experiential learning, including K-12 conservation education programs; vocational education programs in disciplines such as forestry and environmental biology; and environmental education through individual study or voluntary participation in programs offered by organizations such as 4-H, Boy or Girl Scouts, Master Gardeners, etc.;

(4) Benefits from serving as replicable models of effective forest stewardship for private landowners; and,

(5) Recreational benefits such as hiking, hunting and fishing secured with public access.

Community forest. Forest land owned in fee-simple by an eligible entity that provides public access and is managed to provide community benefits pursuant to a community forest plan.

Community forest plan. A tract-specific plan that guides the management and use of a community forest, was developed with community involvement, and includes the following components:

(1) A description of the property, including acreage and county location, land use, forest type and vegetation cover;

(2) Objectives for the community forest;

(3) Community benefits to be achieved from the establishment of the community forest;

(4) Mechanisms promoting community involvement in the development and implementation of the community forest plan;

(5) Implementation strategies for achieving community forest plan objectives;

(6) Plans for the utilization or demolition of existing structures and proposed needs for further improvements;

(7) Planned public access, including proposed limitations to protect cultural or natural resources, or public health and safety. In addition, local governments and qualified nonprofits need to provide a rationale for any proposed limitations; and

(8) A description for the long-term use and management of the property.

Eligible entity. A local governmental entity, Indian tribe, or a qualified nonprofit organization that is qualified to acquire and manage land.

Eligible lands. Private forest lands that:
